Here Comes the **HEAVY HAULER!**

BE THE BEST
AND BY 2005 IS TO DRIVE THIS TRAILER
THROUGH ALL OVER LEGO CITY. DRIVING THIS
BEST IS ALMOST AS MUCH FUN AS BUILDING IT.
BUT IF YOU WANT TO BE A LEGO DRIVER,
FIRST YOU HAVE TO LEARN THE LEGO
HIGHWAY CODE!

THE LEGO HIGHWAY CODE

1. Slow down for mini-figures!
2. Never park where someone might step on you.
3. Watch out for Stop signs, traffic lights, road construction crews, dinosaurs, roadies in battle machines, and that petrol station where everyone's covered in cement.
4. If you hit a tree, stop, go back and rebuild it.
5. Stop at all LEGO Train crossings.
6. Change your tyres every 20,000 bricks.
7. Obey the speed limit - 60 km/h on road or in the 40 km/h on carpeting.
8. Always carry a map with you so you don't get lost. If you see a Tree cross the road, trust the - you're lost.
9. Some jobs are harder than others - like that delivery I made to Mars last week.
10. Always brake for Cool Creations.

The super-cool, super-long Classic truck 7998 is only available for a limited period so look out for it in June!

THE LEGO® CITY FIREBOAT

to the rescue again!

Have you ever wondered how you'd tackle a dockside fire? Jumping in and splashing about isn't going to do much good. Just as well then that LEGO City is equipped with a state-of-the-art Fireboat!

Captain Hosé who is responsible for the beauty you see here tells us more. ■

Yes, thank you. We are very proud of our Fireboat. And it's not only when there are things burning on the shore that we race into action. We can also put fires out on ships and boats.

You can trust us to keep pumping till the

Boat Floater

Fire is out as we take water directly from the harbour so it's an endless supply!

What we do with the water is pretty impressive too... Our pumps can fire it up to 120 metres into the air at a rate of more than 140,000

litres per minute. You wouldn't want to get in the way of one of those jets!

Now tell your Friends about my amazing Fireboat - the best vehicle in the whole of LEGO CITY!

POWER RACERS SMASH UP

WELCOME, BACK FANS, TO THE
FIRST EVER LEGO Power Racers
RACING COMPETITION! LET'S
MEET OUR CONTESTANTS...

THE BLAZING FAST

AND THE MYSTERIOUS
NIGHT BLAZER!

AND THE PANTOSA
CRUISER LIVES UP TO
ITS NAME!

SPEED!

GO! GO! GO!

AND THEY'RE OFF AND RACING! BUT THE FIRST OBSTACLE
IS COMING UP AHEAD. WILL THEY JUMP IT OR NOT?

CRASH

THE OTHER THREE ARE
PICKING UP SPEED.

BUT THE
TRACK'S ABOUT
TO GET TREK!

LOOKS LIKE THE BOOSTER BLADEZ'S WIFE WISHED AGAINST AT THIS TIME

THE FIRE CRUISER AND NIGHT BLADEZ ARE NECK AND NECK. BUT WHAT'S THAT COMING UP BLIND?

IT'S THE TOW TRAILER AND OFF-ROAD POWER! WHO'S TO BLAME FOR THIS CRASH?

IT LOOKS LIKE ANYTHING CAN HAPPEN IN THIS RACE! WAIT, WHAT'S THIS?

IT'S A CRASH PHOTO JOURNAL

GOOD THING THESE RACERS JUST SHW BACK TOGETHER. WHAT DO YOU THINK SHOULD WE RACE THEM AGAIN, OR COMBINE THEM TO MAKE SUPER RACE LEGO RACERS?

TOA MAHRI

RULE THE SEA!

When the power of the Mask of Life strikes the six Toa Inika, it transforms them into the undersea warriors known as Toa Mahri. Now able to breathe water only, they must rely on their skill and their new weapons to fight an aquatic battle against the evil Barraki.

These Toa are still getting used to each other's powers and weapons so they've decided to test each other. See how you would score in this "Who Am I?" game. Find the solution on www.LEGOclub.com using Clubcode FINDIT.

1 I have fins-like wings and my protosteel talons will stop anything.

2 My double blasters will make any Barraki run away like a school of fish.

3 I have a Hahneh crab to carry my Cordak blaster so I can swing my power sword freely.

4 I may have chains but I'm nobody's prisoner. My armour is the colour of the sun.

1 My twin cutter will get rid of anything that tries to steal the Mask of Life and challenge the Barraki power.

2 With my shield and blaster blade I can be from the shadows to save the universe.

A promotional poster for the LEGO Bionicle 2007 line. The background is a dark, swirling blue and black space-like pattern. In the upper left, a large white and grey mechanical structure, resembling a ship or a large robot, is shown. In the upper right, a large black and silver mechanical structure with a prominent red and white circular component is shown. In the lower left, a smaller black and yellow mechanical structure is shown. In the lower right, a green and black mechanical structure with red and white components is shown. The text 'In-store AUGUST 2007!' is in the bottom left. The website 'www.bioniclestory.com' is in a yellow bar at the bottom. There are three yellow circles in the bottom right corner, with the number '9' in the rightmost one.

STAR WARS BUILDING STEPS!

IMPERIAL TROOP TRANSPORT

Boxy but Perimidable, the Imperial Troop Transport is a short-range vehicle designed to get stormtroopers into and out of battle fast. With six powerful repulsorlift engines and two oversized manoeuvring thrusters, it can evade enemy fire while clearing the landing zone with a barrage of laser blasts. A powerful communications array keeps the transport in touch with Imperial Command at all times, and a pair of rear-mounted concussion missiles helps dissuade pursuit in the event of an emergency evacuation. ■

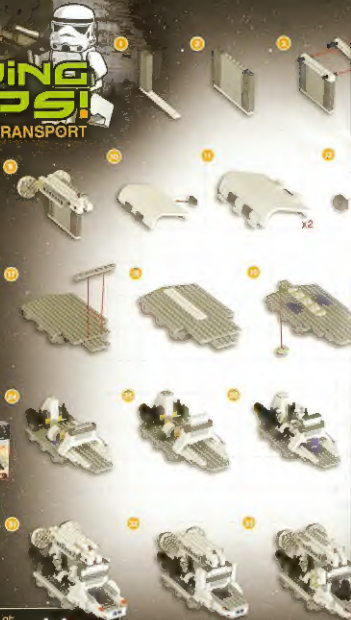

Build the Imperial Troop Transport using pieces from 7658 Y-Wing Fighter® and 7659 Imperial Landing Craft™!

LEGO® MOSAIC

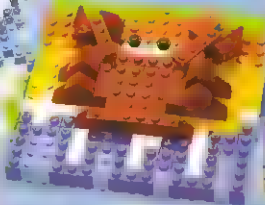

Building a **WORLD** of POSSIBILITIES

LEGO Mosaic (say it out loud: "moe-ZAY-ick"), is a brand-new building set for 2007 that will let you build fun and colourful displayable artwork. Using a transparent baseplate and a great selection of small LEGO pieces, builders of all ages can create just about anything imaginable!

NEW
2007
Ages 4+

Use the hanging piece included to display your mosaic on the wall for all to see... or take it apart and start all over again!

What will you make with your LEGO Mosaic?

What does your Dream House look like?

LEGO model designers sat down to build their dream house and came up with this fantastic LEGO Creator House. The set includes instructions for three different models. See if you can figure out what the third model looks like by joining the dots.

Once you've finished joining the dots why not have a go at building your own Dream House? Don't forget – the sky is the limit!
